Download Starter HTML

Compulsory & Important

Please use this Github link to download the starting HTML file(s) that you will need to write code in this section.
Please download files before watching the lecture.

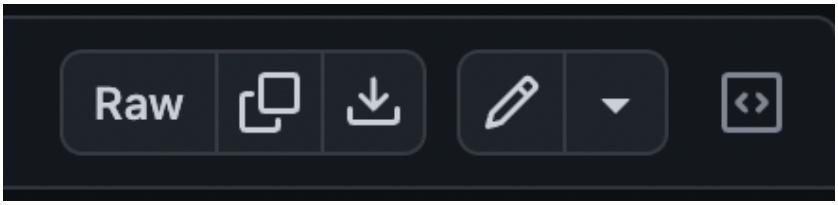

For CSS Part 2, there are 3 files you need to download.

Prerequisites - If you don't have a Github account, Please sign up on https://github.com/ using any email address. And keep the account logged in.

Please download all the HTML files in this folder :
https://github.com/apna-college/Delta/tree/main/CSS/Chapter2%20(Selectors)

To download each file (as mentioned in the chapter) :

- Click on file name
- On the right hand side click on the download raw file button.

In this way, the file will be saved in your system & you start making changes to it.
