CSS (Part 1)

Practice Solutions

Ans 1

Simply add the background color in the body tag.

```
<body style="background-color: wheat">
```

Ans 2 to Ans10

Create a separate CSS file and link it with your html code.

In the CSS file write the following code :

```
p {
  color: brown;
  text-align: center;
  line-height: 30px;
}

h1 {
  text-align: center;
  color: red;
  font-family: Georgia;
}

h3 {
  text-align: center;
  color: black;
```

Scanned with OKEN Scanner

```
}

a {
  text-decoration: none;
  color: green;
}

button {
  background-color: white;
  color: blueviolet;
}

textarea {
  color: black;
}

span {
  text-decoration: underline;
}
```

In Qs 10, put the word ‘Ozymandias’ inside a span element. And then set the proper text-decoration for the span element.

As shown in the line:

```
My name is <span>Ozymandias</span>, King of Kings;<br />
```
